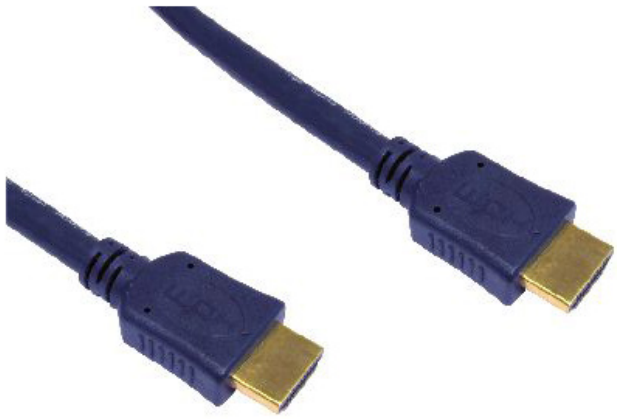
Newlink OFC HDMI Cable

Details correct on: 03/12/2014



Notification	
Product Code	NL2HD-100
Short Description	High Speed with Ethernet, gold, 10 Mtr
Full Description	OFC (Oxygen Free Copper) is produced by melting and casting copper under a near vacuum atmosphere to lower the residual oxygen content. This reduces corrosion and enhances conductivity. Audio/Video connection cable with gold plated HDMI plugs for transmission of digital and audio signal. High Speed with Ethernet supports up to 1080p and beyond with a built in ethernet channel.
